### ***Bodega Chacra is on fire!***

Piero Incisa della Rocchetta and his team are producing the finest Pinot Noir in the Southern Hemisphere.

If you have not followed our recommendations on experiencing these wines yet, you should.

The quality and consistency that Charca is achieving is the admiration and envy of any Pinot Noir producer anywhere: from Burgundy to California. ***These are absolutely captivating and alluring wines that are of the utmost quality and consistency.*** The wines are supple, aromatic, fresh, vibrant, balanced, structured, age-worthy - yet - seductive. They are consistently in the 12% alcohol range and are so reliable that they are a staple in my wine fridge when I just don't know what to drink on a Monday or Tuesday or any night for that matter.

***It has been an exciting privilege to see Bodega Chacra grow into one of the most inspiring wineries of our time.*** Piero's dedication and passion to producing balanced, approachable yet age-worthy wine with modest alcohol is transparent at first sip.

***the glass give way to earth savory garden nuances, all the while having a density of fruit on the mid-palate supported by moderate tannins that caress the palate, yielding an excessively long finish.*** This is simply one of those bottles of Pinot Noir that will constantly deliver and evolve.

***Once again, Charca's new releases are simply stunning.***

Cheers,

Jeremy
